Arcadia Ales™

KALAMAZOO  BATTLE CREEK

DONATION APPLICATION

Arcadia Brewing Company has always been about commitment; to creating quality beers, to building relationships with our customers, and to supporting our communities. We support local charities and non-profits in a variety of ways including our monthly Drink One Down charity event as well as organizing special fundraising events.

Unfortunately, the requests for such support exceed our means to give. If for some reason your application is denied, please do not feel that we do not support your event, your charity, or your cause. Please do not believe that because you have been denied before, future applications will not be approved.

Here's how it works:

We love supporting local events and nonprofits. If your event takes place outside the state of Michigan, or those served by your nonprofit or event are largely from outside of the state, it may be cause for your application to be refused.

How to apply:

Send your completed donation application to arcadiaalesmarketing@gmail.com. Be sure to include the contact information of someone we can call if we have questions, or if they are needed to pick up donated items.

How the review happens:

We review applications on or around the first of each month. Those nonprofits that are approved will receive a phone call or email describing what we are able to give and making arrangements for pickup.

If your application was not approved, but the timing of your event is such that we can review it again during the next review period, we will keep your application in the queue until such time as it is approved or declined or the date of your event has passed. If your donation request is not time sensitive and you would like to be considered for future events, such as 2017 Drink One Down's, please let us know and we will add you to the list!
